

Workplace Toolkit

Posted on Fri, Jul 17, 2020 by farmsatwork

Peterborough Public Health have created a Toolkit for Establishments and Businesses. This toolkit was created to provide public health guidance around COVID-19 for businesses and workplaces in Peterborough City, County, Hiawatha and Curve Lake First Nations as they re-open their doors to employees, clients, and customers. This toolkit includes a checklist to help non-health care workplaces and businesses reestablish operations in a way that reduces the risk of transmission of COVID-19. Links to online resources are also provided.
