Gather, Learn & Share: a dinner event with your Farming Community

Image/Logo

Thu, 09/10/2026 - 16:30

Join us for an evening of learning, good food and connection with your farming community. Hosted at Heritage Cattle Company, this hands-on event will explore rotational grazing, plant health and pasture management, including a pasture walk and demonstration of using a Brix tester to assess plant health.

Enjoy a taco beef dinner featuring Heritage Cattle beef and locally sourced milk, followed by three rotating learning stations: Ask the Vet with Peterborough Veterinary Services, practical electric fencing for rotational grazing, and pasture nutrition with local ruminant specialists. Come ready to learn, share experiences and connect with other farmers.

Registration is required
